#### 1. Segment Results

During the first quarter of fiscal 2017, Adient began evaluating the performance of its reportable segments using an adjusted EBIT metric defined as income before income taxes and noncontrolling interests, excluding net financing charges, qualified restructuring and impairment costs, restructuring related-costs, incremental "Becoming Adient" costs, separation costs, net mark-to-market adjustments on pension and postretirement plans, transaction gains/losses, purchase accounting amortization and other non-recurring items ("Adjusted EBIT"). Prior period information has been recast to the new performance metric. The reportable segments are consistent with how management views the markets served by Adient and reflect the financial information that is reviewed by its chief operating decision maker.

Adient has two reportable segments for financial reporting purposes: Seating and Interiors.

- The Seating segment produces automotive seat metal structures and mechanisms, foam, trim, fabric and complete seat systems.
- The Interiors segment, derived from its global automotive interiors joint ventures, produces instrument panels, floor consoles, door panels, overhead consoles, cockpit systems, decorative trim and other products.

Financial information relating to Adient's reportable segments is as follows:

#### 3. Non-GAAP Measures

Adjusted EBIT, Adjusted EBIT margin, Pro-forma adjusted EBIT, Pro-forma adjusted EBIT margin, Pro-forma adjusted EBITDA, Adjusted net income attributable to Adient, Pro-forma adjusted net income attributable to Adient, Adjusted effective tax rate, Pro-forma adjusted effective tax rate, Pro-forma adjusted earnings per share, Pro-forma adjusted earnings per share, Adjusted equity income, Pro-forma adjusted net financing charges, Free cash flow, Net debt and Net leverage as well as other measures presented on an adjusted basis are not recognized terms under U.S. GAAP and do not purport to be alternatives to the most comparable U.S. GAAP amounts. Since all companies do not use identical calculations, our definition and presentation of these measures may not be comparable to similarly titled measures reported by other companies. Management uses the identified non-GAAP measures to evaluate the operating performance of the Company and its business segments and to forecast future periods. Management believes these non-GAAP measures may assist investors and other interested parties in evaluating Adient's ongoing operations and provide important supplemental information to management and investors regarding financial and business trends relating to Adient's financial condition and results of operations. Investors should not consider these non-GAAP measures as alternatives to the related GAAP measures. Reconciliations of non-GAAP measures to their closest U.S. GAAP equivalent are presented below. Reconciliations of non-GAAP measures related to FY 2017 guidance have not been provided due to the unreasonable efforts it would take to provide such reconciliations.

- Adjusted EBIT is defined as income before income taxes and noncontrolling interests excluding net financing charges, restructuring, impairment and related costs, purchase accounting amortization, transaction gains/losses, expenses associated with becoming an independent company, other significant non-recurring items, and net mark-to-market adjustments on pension and postretirement plans. General corporate and other overhead expenses are allocated to business segments in determining Adjusted EBIT. Adjusted EBIT margin is Adjusted EBIT as a percentage of net sales.
- Pro-forma adjusted EBIT is defined as Adjusted EBIT excluding pro-forma IT dis-synergies as a result of higher standalone IT costs as compared to allocated IT costs under our former Parent. Pro-forma adjusted EBIT margin is Pro-forma adjusted EBIT as a percentage of net sales.

Of the \$10 million in Q2 2016, \$5 million is included within selling, general and administrative expenses and \$5 million is included within equity income.
- (3) Reflects non-qualified restructuring charges for costs that are directly attributable to restructuring activities, but do not fall into the severance, exit or disposal category and therefore do not meet the definition of restructuring under ASC 420. These amounts are included within selling, general and administrative expenses.
- (4) First quarter 2017 primarily consists of \$12 million of initial funding of the Adient foundation. Also reflects a first quarter 2016 \$13 million favorable commercial settlement, second quarter 2016 \$22 million favorable settlements from prior year business divestitures and a \$6 million favorable legal settlement, and a third quarter 2016 \$14 million favorable legal settlement. Also reflected is a multi-employer pension credit associated with the removal of costs for pension plans that remained with the former Parent in the amount of \$8 million, \$7 million, \$8 million and \$1 million in the first, second, third and fourth quarters of 2016, respectively. These amounts are included within selling, general and administrative expenses.

- (8) Pro-forma amounts include IT dis-synergies (within cost of sales) as a result of higher stand-alone IT costs as compared to allocated IT costs under our former Parent, interest expense that Adient would have incurred had it been a stand-alone company and the impact of the tax rate had Adient been operating as a stand-alone company domiciled in its current jurisdiction.
- (9) Cash at September 30, 2016 is pro-forma cash based on the preliminary funding of Adient's opening cash balance on October 31, 2016.
- (10) Total debt at September 30, 2016 has been revised to include debt issuance costs as a reduction of the carrying amount of the debt in accordance with ASU 2015-03, which was adopted retrospectively by Adient in Q1 2017.
- (11) During the second quarter of fiscal 2017, Adient decided to reclassify certain Becoming Adient costs into other reconciling categories in calculating Adjusted EBIT. As a result, Becoming Adient costs related to prior periods decreased by \$16 million and restructuring related items and other items increased by \$3 million and \$13 million, respectively. This change did not impact the Adjusted EBIT numbers for any prior periods.
